UPDATED: STAKEHOLDER CONSULTATION MEETING

UGANDA WASH INITIATIVE: BUILDING HEALTHY COMMUNITIES

Ek is a results-driven project manager specializing in initiatives that create positive social impacts

Whilst concurrently delivering environmental benefits. With a keen focus on identifying and Leveraging opportunities, EK adeptly navigates projects that align with both social goals and the

Promotion of environmentally sustainable practices.

- STX is a leading global environmental commodity trader and climate solutions provider.
- EK has partner with STX for the development of a programme for the improvement of safe drinking water, sanitation and hygiene (WASH) access of local communities in several districts of uganda, such as kamuli, Jinja, Buyende and Luuka.

EK and STX invites all interested people to attend a stakeholder consultation meeting:

Uganda WASH initiative: Building Healthy Communities for the area of: Kamuli,

Jinja, Buyende & luuka

- 8-16 April 2024 from 9am to 1:30pm on the Venues indicated below

The meeting will provide an opportunity to discuss a new safe drinking WASH program activity in the districts of Jinja, Kamuli, Buyende and luuka. The project activity will involve constructing new Water boreholes and repairing damaged and non- functioning ones with the aim of providing safe water for direct human consumption as well as water purifier technology for safe drinking water access, sanitation and hygiene. In addition to improving people's health and well-being, the project will decrease house hold fuel consumption required for boiling drinking water, thereby reducing greenhouse gas emissions that contribute to climate change. The meeting will allow all interested people to discuss and provide further information, ask questions, and provide feedback.
