

# SEARCHING FOR COMMUNITY-BASED SOLUTIONS THAT IMPROVE HEALTH, AND SEXUAL AND REPRODUCTIVE

## Who are we?

The Makerere University Social Innovation Health hub is part of the Social Innovation in Health Initiative, a global collaboration of partners passionate about advancing community-based health solutions in low-and-middle income countries.

## Focus of the solution

- Improving access to healthcare services.
- Improving the quality of healthcare services.
- Improving access to and quality of sexual and reproductive health services.

We are interested in innovative solutions - which could be a new service, practice, process, or technology - that have a minimum of 2 years of implementation and are currently ongoing.

*We would like to recognize your solution and learn from you!*

## How will you benefit?

By sharing your solution, you could benefit by:

- Being recognized by national and global policy makers.
- Being featured in a TDR/WHO film on social innovation in Uganda.
- Joining our community of innovators and stakeholders for social innovation in health in Africa.
- Receiving technical advice for your solution development or monitoring and evaluation.
- Participating in SIHI Uganda training program.

## How to get involved

### 1. To Apply:

Download the form via the link: <https://bit.ly/3b1ptYq> fill it out, and email it to us at:

[uganda@socialinnovationinhealth.org](mailto:uganda@socialinnovationinhealth.org)

**2. Connect with us:** tell us about people whose work you think we should know about.

Send WhatsApp to: **0775 124878**
